PROFESSIONAL SUMMARY

Product Designer with 2.10 years of experience at Infosys, focused on creating user-centered digital experiences through UX research, strategy, and thoughtful interface design. Skilled in translating complex problems into intuitive user flows, wireframes, prototypes, and scalable UI systems. Experienced in collaborating with cross-functional teams and stakeholders and iterating designs based on user insights and feedback. Proficient in Figma, FigJam, Miro, Framer, and Notion.

SKILLS

Design Skills: User Research, UX Strategy, Information Architecture, User Flows, Wireframing, Prototyping, UI Design, Interaction Design, Usability Testing, Visual Design, Design Systems, Responsive Design

Tools: Figma, FigJam, Miro, Framer, Notion

WORK EXPERIENCE

Product Designer — Infosys, Hyderabad

Apr 2022 – Feb 2025

- Designed user-centered digital experiences by translating user needs and business requirements into intuitive product solutions.
- Created user flows, wireframes, high-fidelity UI designs, and interactive prototypes using Figma.
- Conducted UX research and usability testing to identify pain points and inform design decisions.
- Collaborated with cross-functional teams and stakeholders to communicate design concepts, gather feedback, and refine solutions.
- Developed reusable UI components and design patterns to improve consistency, usability, and scalability across product experiences.

PROJECTS

CareerNest — Career Guidance Platform

UX Research | Figma | Prototype

- Designed a browse-first career exploration platform that helps students discover, evaluate, compare, and plan career paths.
- Conducted competitor analysis and review mining to identify pain points including information overload, limited career awareness, and difficulty finding actionable guidance.
- Designed core experiences including career discovery, contextual filters, career details, career comparison, saved careers, career pathways, and learning resources.
- Created a structured Discover → Choose → Study experience to reduce exploration friction and help students move from career discovery toward actionable next steps.

Spotify Redesign

UX Research | Figma | Prototype

- Redesigned the Spotify experience to make music discovery more personal, conversational, and effortless.
- Identified opportunities around discovery friction, playlist management, and conversational music search through product analysis and UX research.
- Designed key experiences including personalized discovery, conversational interaction, playlist management, and immersive music experiences.
- Developed user flows, wireframes, high-fidelity UI, and interactive prototypes to explore the proposed experience.
